For all degrees the shaded areas are required. The required activities may be substituted with TWO optional activities. For example, if you cannot attend a new member orientation, then you may pick two optional activities to replace it. The "Optional" activities need to be filled with just one activity. Write what the activities are in the blank spaces. For the springboard a total of 18 activities are required (8 shaded/required and 10 others). Three degree submissions is the maximum per quarter.

The objective of the springboard is to be involved with the chapter and get familiar with all of the activities and leadership opportunities available to you as a member.
